The FLOC of DUCs Project

Forward Looking Opportunities for
Communities of

Disadvantaged Unincorporated Communities

The FLOC of DUCs is a cooperative concept to unite a cluster of small water systems to become self-sufficient by shifting their energy usage off the grid to target specific segments of their systems using alternative energy and having savings for group reinvestment in their community water systems. This challenge requires support to find funding or partnership for success.

Quarterly Meeting Date: October 24, 2026

11:00 AM – 12:30 PM

Location: Woodville Public Utility
District Office Boardroom

16716 Rd 168, Tulare, CA 93274

Directions:

https://www.google.com/maps/place/Woodville+Pub+Utility+District/@36.0921559,-119.2020424,16.22z/data=!4m6!3m5!1s0x80eac1003e3b96ed:0x4bac40a4efaeada18m2!3d36.0948528!4d-119.1986354!16s%2Fg%2F11zb43s14p?entry=ttu&g_ep=EgoyMDI2MDkxMy4wLXkxMDS0ASAFAw%3D%3D

Alpaugh CSD has now agreed to join FLOC of DUCs

The Heart of the FLOC of DUCs project:

A cooperative vision where disadvantaged unincorporated communities unite to become self-sufficient, resilient, and empowered.

Organizational Expansion and Agreements – We have a new Member!

Cooperative Agreement Framework,

Grid Alternatives Presentation: Solar Power Implementation Options

Voice from Tulare County

Imagine small communities coming together to take control of their water systems financial disadvantage, shifting instead to clean, alternative energy and reinvesting their savings back into the **Water System Maintenance** for the Community they call home.

We're at an exciting next step—exploring partnership, seeking funding, and building the foundation for real change. But we can't do it alone. Join Us!!

Together, we're not just dreaming of change; we're building it, together.
